

# FORT WORTH

## SCUUG 2011

October 7, 2011

Hosted by  
Texas Wesleyan University  
Dee J. Kelly Law Library

### Preliminary Program

#### **SirsiDynix Presentation**

Don't miss the SirsiDynix product updates including the new initiative SirsiDynix from revolves around the OPAC/Discovery tools & electronic resources. See a demonstration of Enterprise 4.1 and SirsiDynix's Facebook Application

#### **SaaS Panel Discussion**

Hear feedback from sites that have implemented Symphony Software-As-A-Service about their successes and challenges

#### **Implementing VuFind as an Alternative Catalog**

Texas Wesleyan University's main campus library implemented an alternative juvenile catalog in 2010. The Cataloging and Systems Librarians will speak about their experiences with adapting the resources available to create the most useful catalog for students. Find out how faceted searching required a re-evaluation of catalog records, and how the system was built behind-the-scenes.

#### **Exporting MARC Records Into a Small Library System**

Join us for a case study on providing library service to prisons using MARC records from Workflows for special needs circumstances

#### **Scan Me! Using QR Codes to Engage Smartphone Users at Your Library**

Find out how easy it is to implement QR codes to provide your library patrons one click access to content or services using their smartphone.

#### **The Future of Libraries**

Join self-appointed technology freak Eddy Smith as he unfolds a unique exploration of the future of libraries and librarians. Difficult to categorize, this personal narrative is designed to engage, provoke, and inspire librarians for the work we do.

#### **Sharing Sessions**

Network with your colleagues and share your experiences or learn from theirs about your favorite module.
